Project Topic:

Cafe de Java

Description

This project is to create a website for a Cafe which sells Coffee, Pastries. The website is going to be developed with the Standard technologies for Web development (HTML, CSS, and JavaScript).

The idea is to create a website with Catchy graphics, a menu section which displays the food items, a feedback form to get reviews, and also an email subscription to make customers notified about the ongoing interesting events, ideas, information related to the Cafe.
